4. Spaces still available on our popular Holiday Courses

CHANGERS TO COACHING STAFF

Chris Phillips Goalkeeper Coaching Ltd has seen many changers in the past 6 months with different staff now at different venues. This is a very exciting time as the company is now moving forward beginning to implement new coaching programmes to assist in the development of our goalkeepers.

The staff at our CPGC weekly centers include Chris, Simon, Charlie and Mark who between them have all worked with goalkeepers within the professional game. Many parents have been asking questions such as "How can my son / daughter be bigger and stronger?" This unfortunately is in the hands of the gods and will only occur after puberty. We recognise that it is very important to allow the goalkeepers to develop technically at the younger ages and then develop goalkeepers physically when the body begins to mature. With this in mind we are able to offer advice on request to any parent / guardian when needed.

HOW CAN YOUR CLUB BECOME MORE EFFECTIVE AT GOALKEEPER COACHING?

On a weekly basis we are given feedback from parents and managers saying they have limited or no provision for goalkeepers within their club. CPGC have put together a '**Coach Development**' programme which will lead club coaches through the basics of goalkeeping and how to adapt outfield sessions to incorporate the goalkeeper effectively.

As each club has different requirements; we are able to create a bespoke programme specifically for your club and with your needs in mind. For further information please contact the office or visit the website.
